Office Safety Precautions in Effect During the Pandemic

PACES New Mexico is taking the following precautions to protect our patients and help slow the spread of the coronavirus:

- Office seating in the testing room has been arranged for appropriate physical distancing.
- I only schedule one appointment per day to minimize the number of people in the waiting room.
- I ask all patients to wait in their cars outside the building until no earlier than 5 minutes before their appointment times.
- I will wear a mask.
- I will maintain safe distancing.
- Restrooms are maintained and everyone is encouraged to wash their hands. Hand sanitizer is available in the testing room.
- Credit card pads, pens, testing materials and other items that are commonly touched are thoroughly sanitized after each use.
- Physical contact (e.g., handshaking) is not permitted.
- Tissues and trash bins are easily accessed and trash is disposed of on a frequent basis.
- Common areas are thoroughly disinfected at the end of each day.
